SIR:

SPECIES ELECTION UNDER 35 USC § 121

In response to the Office action dated March 25, 2004 (application Paper No. 03222004), applicant elects species (I), directed to the use of an evanescent coupling region having a tapered gap portion, for prosecution in this application. This species, as noted by the Examiner, is readable on claims 6-7, 21-26, 28, 33 and 51.

Applicant affirms the Examiner's notation that claims 1, 4 and 5 are considered as "generic", and will be examined with the elected species. As mentioned by the Examiner, upon the allowance of the generic claims, applicant is entitled to request consideration of the additional species (written in dependent form) to also be allowable in this application. Lastly, applicant notes that claims 2-3, 9-20, 27, 32, 27-50 and 52-56 "are not grouped into either one of the mentioned species, and thus these claims will be

Deliwala 5003-02

examined with the generic claims and the claims of the elected species", as stated by the Examiner.

Should there remain any questions regarding this application, the Examiner is invited to contact applicant's attorney at the telephone number listed below.

Respectfully submitted,

Shrenik Deliwala
